The Applicant must submit detailed written evidence to support the Standards for Variation (below) that the Zoning Board must consider at a Public Hearing regarding a request for a variation. Each item below must be specifically addressed in the written submittal. The Zoning Board must find that each one of the Standards have been or will be satisfied based on the evidence presented by the Applicant at the Public Hearing in order to recommend approval to the Village Board.

#### ***The following Variation Standards must be provided along with the written responses***

- 1. Because of the particular physical surroundings, shape or topographical conditions of the specific property involved, a particular hardship to the owner would result, as distinguished from a mere inconvenience if the strict letter of the regulations were to be carried out;*
- 2. The property in question cannot yield a reasonable return if permitted to be used only under the conditions allowed by the regulations governing the zoning district in which it is located;*
- 3. The conditions upon which an application for a variation is based are unique to the property for which the variance is sought, and are not applicable, generally, to other property within the same zoning classification;*
- 4. The purpose of the variation is not based primarily upon a desire to increase financial gain;*
- 5. The alleged difficulty is caused by this Title and has not been created by any persons presently having an interest in the property;*
- 6. The granting of the variations will not be detrimental to the public welfare or injurious to other property or improvements in the neighborhood in which the property is located;*
- 7. The granting of the variation will not alter the essential character of the neighborhood or locality;*
- 8. The proposed variation will not impair an adequate supply of light and air to adjacent property or substantially increase the congestion of public streets, or increase the danger of fire, or impair natural drainage or create drainage problems on adjacent properties, or endanger the public safety, or substantially diminish or impair property values within the neighborhood;*
- 9. The proposed variation is consistent with the Official Comprehensive Policies Plan of the Village and other development codes of the Village.*
